PROFESSIONAL SUMMARY

Versatile and detail-oriented Front End Developer with experience designing and developing responsive web and mobile applications. Proficient in frontend technologies like React JS, React Native, HTML, CSS, JavaScript, and Bootstrap, as well as backend development using PHP, MySQL, PostgreSQL and Spring Boot. Adept at delivering end-to-end solutions—from crafting intuitive user interfaces to implementing robust server-side logic and database management. Skilled in version control using Git and GitHub, including branch management, code reviews, and collaborative workflows to ensure efficient team development.

WORK EXPERIENCE

Full Stack Developer

Bizp Advisory service / Chennai, Tamil Nadu

Having 2.7 years of hands on experience in leading the design and development of responsive web application and mobile application ensuring seamless functionality across devices while collaborating closely with cross-functional teams. Actively managed client communication, gathering requirements, and translating them into actionable development tasks, resulting in optimized project outcomes.
